

## **2008 Midwest Vegetable Production Guide for Commercial Growers (BU-07094)**

*Bill Hutchison, Dept. of Entomology, University of Minnesota*

If you missed this at winter educational meetings, the new 2008 Revised Edition is available on the web. The annually revised publication provides all current recommendations (pest thresholds, sampling tips, variety information), as well as control options and recent pesticide registrations. The guide also includes research-based recommendations for all major weed, insect and disease pests, for all vegetable crops produced in the Midwest Region. The book is edited and reviewed by Extension Specialists in 5 states, including Minnesota, Iowa, Illinois, Indiana and Missouri. The guide for 2008 includes 172 pp., numerous tables and figures, and web sites for additional information.

We held the price again, to \$12.00 (+shipping, tax). To order the book, call (612) 624-4900 or 1-800-876-8636 (*ask for BU-07094*).

You may also order via the web, Minnesota Extension Service Web site:
